- ✓ Glucosamine Sulfate
- ✓ Chondroitin Sulfate
- ✓ Biotin
- ✓ Omega 3 & 6
- ✓ Multivitamins

Feeding Instructions

	Toy Dogs (up to 11 lbs.)	Small Dogs (11-20 lb.)	Medium Dogs (20-40 lb.)	Large Dogs (40- 60 lb.)	X-Large Dogs (Over 60 lbs.)
Loading Period (first 21 days)	1 tsp.	2 tsp.	4 tsp.	2 T.	3 T.
Maintenance	½ tsp.	1 tsp.	2 tsp.	1 T.	1.5 T.

Pour onto your dog's food once per day, or feed directly from owner's hand to improve bonding. For best results, use loading quantity once a day for the first 21 days. Thereafter, cut amount to maintenance quantity and continue to use every day. Do not exceed recommended serving amounts per day. Dogs that are experiencing illness or added stress may be put back onto the loading dose temporarily as deemed appropriate. Keep food containers clean and provide clean fresh water. Shake well before use. Keep out of direct sunlight, store between 50°F (10°C) and 77°F (25°C).
