fatty acids*

- ✓ **Glucosamine Sulfate**
- ✓ **Chondroitin Sulfate**
- ✓ **Biotin**
- ✓ **Omega 3 & 6**
- ✓ **Multivitamins**

## Feeding Instructions

	Small Cats (6-8 lb.)	Medium Cats (8-15 lb.)	Large Cats (> 15 lb.)
Loading Period (first 21 days)	¼ tsp.	½ tsp.	1 tsp.
Maintenance	1/8 tsp.	¼ tsp.	½ tsp.

Most cats will not try MyBeau Cat from a bowl initially. We recommend introducing your cat to the taste gradually by placing a little bit around his/her mouth and on paws. After a few days of this, try adding the suggested amount to your cat's food once per day. If the cat will not take it after a few days, reduce amount gradually until you find an amount they are willing to take. Even if it is less than the recommended amount indicated on the chart, a little bit will go a long way due to the extremely high bioavailability of this product. It has been reported to us from customers that cats who are known to have immune system deficiencies or nutrient deficiencies are generally more willing to take this product than other cats.

Do not exceed recommended serving amounts per day. Cats that are experiencing illness or added stress may be given up to the loading dose per day if they will eat it. Keep food containers clean and provide clean fresh water. Shake well before use. Keep out of direct sunlight, store between 50°F (10°C) and 77°F (25°C).
